

Poster Sessions

- In the **poster sessions**, speakers should prepare to give a **90min. presentation**, in which 45min. core time is included. During the core time, a speaker should stand in front of his/her poster.
- If the last digit of the lecture number is odd/even, the core time is the first/latter half of the presentation time.
- The panel size is shown in the figure below.
- Hang your poster on the panel using tacks prepared in the session room.
- Post the [index sheet](#) of A4 landscape size on the upper left corner of the panel. The lecture number, the session name, the core time, and the authors' name (affiliation) should be written on the index sheet.

- An AC outlet (100 V, 60 Hz) should be shared by two presentations.
- Extension cables and additional outlets should be prepared by the speakers.
- Any equipment for demonstration such as computers and robots must be taken care of and kept by the speakers by their own risk. **Please restrain to use any equipment that might cause any trouble such as noise and danger.**
